

COACH'S TIPS

Tip #6

Recruiting Members - The Seven Wonders of GR

THE STRENGTH OF A SECTION often depends on the synergy of each of the seven sectors ... as the "7 Wonders of the World!"

The typical way to start a new section is to recruit in the first phase of a member in each of the 7 Wonders and constitute the Board of Directors with these leaders.

It is also important to continually develop your group by adding members from one of these sectors.

As business people have a natural tendency to cluster according to the nature of the services they offer to their customers, please complete this worksheet as a group and send it to us at the following address: info@groupereso.com so that the GR team can help you develop your style and references that result.

Here is a non exhaustive list of items making up the 7 Wonders:
